MANAGEMENT DISCUSSION & ANALYSIS REPORT

INDUSTRY OVERVIEW

The India Power & Distribution Transformer market is forecast to reach \$2.9 billion by 2022.

Government is taking major steps to strengthen the power transmission & distribution network and has undertaken initiatives such as UDAY for financial turnaround of power distribution companies. Further, the Government of India has projected an investment of INR 146,000 crore in power transmission sector by FY 2019 to strengthen the transmission network thus increasing the demand for power transformers.

The two biggest budget announcements pertained to rural Electrification and Solar Energy. There were few others announcements pertaining to higher allocations to the flagship Programs – Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY) and the Integrated Power Developments Scheme (IPDS), more incentives for LED domestic manufacturing and lowering indirect taxes to promote the use of renewable. While these proposals augur well for the Power Sector, the budget, on the whole, perhaps failed to cheer the sector and fell short of meeting certain industry expectations. The Industry continues to live with surplus capacity resulting in continued pricing pressure. The outlook for the sector is improving with slow pace.

INDIAN TRANSFORMER INDUSTRY-Opportunities and Threats:

Market Drivers

Government Initiatives - DDUGJY, IPDS, UDAY, Growing FDI in Power Sector, Replacement of Transformers
Growing Renewable Energy Sector

Market Restraints

High CRGO Imports, Inadequate Testing Facility

“The Indian economy is witnessing a restoration and so are the electrical industry and its various segments including the transformer industry. High demand arising from the energy intensive oil and gas, and cement segments has buoyed prospects for the Indian power transformer market. Developments in the power sector will have huge ramifications for the Indian transformer industry.

Economic growth has stabilized and downside risks have fallen. The company will have good opportunity to secure Projects orders. Although there is stiff competition in the market, yet because of wide product range, innovation and Adoption of new technologies. Company has taken various initiatives with an aim to address these concerns.

BUSINESS OVERVIEW- product-wise performance:

Your Company is currently engaged in the areas of manufacturing, rehabilitation, up-gradation, and refurbishment of transformers ranging from Power & Distribution Transformer, Industrial Transformer, Furnace Duty Transformer, Electric Locomotive Transformer, Electric Traction Substation Transformer, Dry Type Transformer, Potential Transformer, and Special Purpose Transformers. We are one of the few players in Indian markets manufacturing & repairing, power & distribution transformers, focusing on quality, timely delivery and customization based on our engineering capabilities without any third party collaboration or technical assistance.

In India many players belong to the unorganized segment of the Industry and cater to small ratings distribution transformer's demand. However, over a period of time many of these small players moved up the value chain and graduated to the higher rating transformers. Despite this, the number of players qualified for the larger variants of transformers is still small to serve upcoming demand expected over forthcoming years.

DISCUSSIONS ON RESULTS OF OPERATIONS-product-wise performance:

During the Financial year 2016-17, your Company has achieved Total Turnover of Rs.2814.35 Lacs and has incurred Net Loss of Rs.226.45 Lacs.

The Company has net worth of about Rs.4966.35 Lacs as on March 31, 2017.

The Company has incurred losses during the year, mainly due to the fact that the nature of business is working capital intensive and we mainly deal with State Electricity Boards which are known for delayed payments. As payments are blocked with SEB's, there is need to borrow for short term to carry on operations, which impacts our profitability as high interest payments are to be made.

OUTLOOK FOR THE COMPANY:

Large outlay by the Government on infrastructure projects and ambitious target of solar and wind energy projects is likely to improve tender / enquiry in pipeline for potential business. Initiatives such as UDAY, DDUGJY, aggressive renewable energy target, the new hydro policy and the massive transmission connectivity plans is expected to gradually ease competitive pressure. These reforms are ambitious. If executed properly, they could have a significant impact on the sector in the next few years. With this background, the Company looks forward to improve business in volume term in current year, but margin continued to be under pressure in view of surplus capacity with organized sector players in industry. As the number of competitors in the higher range of power transformers manufacturing is very small, the board still foresees a bright future for the Company. However, the targeted profitability will be achieved only after the Company meets the minimum qualifying criteria set up by various utilities who happen to be our main customers.

RISK & CONCERNS

The major risk factors affecting the Company are over capacity in industry, non-lifting of ready materials due to cash constraints at customers' end building inventory and liquidity issues, increase in receivable positions due to delay in payment by certain customers, uncertainty in execution of low fixed price orders. The wide fluctuation of rupee against US Dollars also affects margin since the key raw materials, viz. copper, transformer oil, special steels for lamination, etc., are of import origin. Our future results of operations could potentially be affected by the following factors:

- Our ability to manufacture transformers as per the requirement of our clients;
- Our ability to continuously operate and maintain our manufacturing facilities optimally;
- Our ability to continue to source raw material at competitive rates;
- Our ability to manufacture transformers using the latest technologies in terms of modern materials, components and processes.
- Our ability to generate working capital funds at reasonable interest rates.

HUMAN RESOURCES AND INDUSTRIAL RELATION:

The company has maintained very harmonious & cordial Industrial relations. There is continuous emphasis on development of human resources through training. The issues pertaining to workers are resolved in harmonious and in cordial manner through regular interactions. We believe whatever we achieved from where we started our journey long back is the result of efforts of our team. So, we consistently aim to provide a sustainable environment for learning right from the stage of recruitment to retention.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Internal audit was carried out by firm of Chartered Accountants who conduct the audit on the basis of Annual Audit Plan. The process includes review and evaluation of effectiveness of the existing process, controls and compliance. It also ensures adherence to policies and systems, and mitigation of the operational risks perceived for each area under audit. Significant observations including recommendations for improvement of the business processes were reviewed by the Management before reporting to the Audit Committee which reviewed the Internal Audit procedures, findings and status of implementation of the agreed action plan.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis Report, describing the Company's objectives, projections and estimates, are forward-looking statements and progressive within the meaning of applicable securities laws and regulations. Actual results may differ materially from those expressed in the statement. Important factors that could influence the Company's operations include global and domestic demand and supply conditions affecting selling prices, input availability and prices, changes in government regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of Tarapur Transformers Ltd. ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:-

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following weaknesses have been identified as at March 31, 2017.

- a) The Company did not have an appropriate internal audit system.
- b) The Company did not have an appropriate internal control system for inventory with regard to periodic verification of stock.

In our opinion, except for the possible effects of the weakness described above the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
